

Regarding More Idiot-Speak About "Secession"

By Anna Von Reitz

We don't want or need a civil war--- which is what those vermin are hoping for, promoting, and wanting us to do.

Why do our enemies want an excuse to murder us?

We are their Priority Creditors. And they have heavily insured us.

So, every time they kill an American, they get a big insurance pay off. That's benefit one. They also get rid of one of their Priority Creditors. Benefit two. Then they get to pay themselves out of our public funds for performing this "service". Benefit three. Last but not least, they come in and claim all the property of the dead, murdered Americans as "abandoned property".

This was Hitler's "Final Solution" and it is still the plan of the Nazionists.

Spread the word about how stupid it is to talk about "secession" and how those in Texas and elsewhere are doing nothing but play into the hands of those itching to destroy us.

Time to grow a brain, America.

The only lawful way for any state to secede is for all the states to get organized, send deputies to a Continental Congress, and rewrite the agreement. If you are too lazy to do that, you are certainly too lazy to win a civil war.
